

New kids on the block

A new store opening in our neighbourhood is exciting, and another reason to stay local and enjoy something new.

Ziippup is Australia's first dog lead with a built-in poop bag holder. The leads are made from recycled plastic bottles instead of polyester like most other dog leads on the market. The built-in poop bag holder is made from stretchy jersey material and will hold a full standard roll of poop bags. Or you can store your keys, dog treats or even your headphones in there.

Owner Annelie says "I was looking for a sustainable lead and an alternative to those dangly poop bag holders that break all the time. I thought there must be a better solution out there but there wasn't – so I designed one!"

Fancy Nancy is the latest addition to the Rozelle café scene. Owner Harrold named the café after his beloved mother. "My mum Nancy has an affinity for all things fancy and she tends to exaggerate so we lovingly refer to her as 'Fancy Nancy'. To add a touch of humility to her extravagant taste, I wanted to strike a balance between elegance and approachability."

The café is designed to give customers a comfortable and relaxing experience whether you're popping in for a quick cup of coffee, spending the morning working from 'home' or enjoying a delicious meal. The menu focuses on high quality produce and has something for everyone.
